

## Why Choose Me?

I am a mom first, photographer second! I know what its like to not have your kids smile or look when the camera flashes. It is important for me that YOU have a portrait that captures that smile or special look. I also understand the time and patience it can take to 'get the shot'.

Since I only book a limited number of appointments per month, I am able to dedicate quality time to your studio session and processing / enhancements of your images.

I started my photography career as a serious hobby photographer in high school. I continued my career through study and the hundreds of thousands images I've captured in my lifetime.

There is nothing more satisfying than 'creating' a portrait that leaves an impression! If I haven't done that, then I haven't done my job!

I'm constantly learning and studying and doing what it takes to be the best I can be! That's why, if you are not happy with the portraits or the shoot, I'll be happy to re-shoot your session for FREE!

Thank you for your time and consideration!

Sincerely,  
Christy Scheeler
